

HYPACK and SonTek Collaboration

HYPACK and SonTek Integration—CastAway-CTD®

Enjoy HYPACK's new sound speed interpolation by position and time with SonTek CastAway –CTD®. Simply cast and click, and sound speed data will automatically import via Bluetooth into HYPACK®.

The CastAway-CTD® is a rugged, handheld profiler

- Integrated GPS providing position and time for each cast
- Bluetooth communication integrated into HYPACK® and HYSWEEP®
- One-Button download of latest cast
- Leverage advanced sound velocity processing features of MBMAX64 Multibeam Editor

HYPACK and SonTek Integration—HydroSurveyor - M9 System

Full integration with HYPACK software and the HydroSurveyor - M9 System. You can now collect and process bathymetric data using HYPACK®.
