

## Join Us | HYPACK 2022

The **HYPACK 2022** training event will be held on January 18<sup>th</sup>-20<sup>th</sup>, 2022 in-person at the Hyatt Regency in Long Beach, California. Our annual hydrographic and dredging Training Event will be filled with the newest features in HYPACK® 2022, as well as training for novice and experienced users.

HYPACK is looking forward to meeting everyone in person again after a long year of virtual events. We will have 30 of the industry's leading companies exhibiting at the event for you to learn about their products and services. Live on the water demos will also come back this year! We are excited to show off our software live for everyone to see. Throughout the event, our team will also offer one-on-one sessions for attendees to meet with our HYPACK certified trainers. This will give people the opportunity to ask project-specific questions and get help from a HYPACK expert.

**EXHIBITORS:** If your company is interested in exhibiting, contact [Brittany.danek@xylem.com](mailto:Brittany.danek@xylem.com).

Make sure to save the date and join us at the 29th annual HYPACK Training Event! Early bird registration will open at the end of August.

We hope to see you there!
