

SAVE THE DATE | HYPACK 2021

We are very excited to announce that **HYPACK 2021 Hydrographic Training Event** will be held on January 5th-8th, 2021 at the Hyatt Regency in Long Beach, California. We understand that travel restrictions may still be in place if there is a resurgence of COVID19. If we are unable to move forward with our in-person event, HYPACK will be hosting a virtual HYPACK 2021 Training Event on January 5th-8th, 2021. A virtual event will still allow exhibitors to participate and engage with attendees, live training classes will continue as normal with all-day sessions, and one-on-ones with our HYPACK experts will also still be available.

Here at HYPACK, we are making sure that our attendees and exhibitors will still have an excellent and beneficial experience. Our annual Hydrographic Training Event will be filled with the newest features in the HYPACK® software, as well as training for novice and experienced users. This event is a great opportunity to meet with our certified HYPACK® trainers, and network with 30 of the industry's leading companies.

Whether we're together in a conference room or together online, the show must go on! So make sure to save the date and join us at the 28th annual HYPACK Training Event!

We hope to see you there!
