## DID YOU KNOW? HYPACK OFFERS LEASING OPTIONS ON ALL OF OUR SOFTWARE PRODUCTS!

**Need a short-term option? Looking to save? We've got you covered!**

Did you know that HYPACK offers software leasing?

This is a great way to save money if you want to try out HYPACK®, use it on a project for less than a year, or if you need to use our software occasionally.

As one of the world's leading hydrographic software providers, HYPACK is committed to providing a variety of options that fit your use of our software and make sense financially for your company.

With annual, semi-annual, monthly, weekly, and daily leasing options, our lease terms range from as little as 3 days to a full year. It is also simple to extend your lease. Take advantage of our latest features while enjoying the financial flexibility.

You can lease any of our software packages like HYSWEEP®, GEOPHYSICS, and ECHO, or the full HYPACK® suite.

Easily upgrade to a full HYPACK® license if you determine our HYPACK® software makes sense for you long term. We offer a discount on the license if you upgrade within one year of

---

the lease start date. You can apply part of what you've paid for leasing to the purchase of a similar package.

## **BENEFITS OF LEASING**

- Low cost
- Flexible short term options
- Easy lease extension
- Available for all HYPACK software packages
- Leasing is effortless with our soft license option

## **LEASING OPTIONS**

HYPACK offers annual and short-term lease options. You may apply 85% of lease price paid to HYPACK toward the purchase of a similar package within one year of the lease starting date (total discount not to exceed the full value of the license).

## **MINIMUM LEASE PERIOD**

- Hardlock Key - 7 Days
- Soft License - 3 Days
