HYPACK Technical Support From Ukraine

BY IVAN IZAAK

Dear HYPACK Customers! I am representing the HYPACK Technical Support Team for all of our users in the Eastern Hemisphere. I am based in Ukraine. As you all know, Ukraine is under attack by the Russian Federation. The situation is bad with war entering most of my Motherland. Ukraine will stand I am sure of it!

Despite this, I am still available for support so, please, do not hesitate to ask for help - I am doing my best to continue my work.

HYPACK® 2022 now has a few new languages in the Language Database and I am now preparing Ukrainian Interface for our products. I think it will be ready by Q1 Updates.

Sincerely Yours,

Ivan
